## Profile

Passionate and self-taught front-end web developer with experience in building responsive and user-friendly interfaces. Created a Facebook front page clone using HTML, CSS, Bootstrap, and JavaScript, ensuring a seamless and optimized experience. Continuously learning and improving through self-study, including resources from the Prototype YouTube channel. Skilled in crafting clean, efficient code and staying updated with the latest web technologies.

## Employment History

### Self-Taught Front-End Developer

Self-motivated front-end developer with hands-on experience in HTML, CSS, JavaScript, and Bootstrap. Developed projects like a Facebook Clone (Front Page) and Portfolio Website with a focus on responsive design and performance. Skilled in Git & GitHub for version control and optimizing code using Chrome DevTools. Continuously learning and staying updated with modern web technologies

## Courses

### Web Designing, Prototype

November 2024 — January 2025

### Certified Penetration Tester, Red team Hackers Academy

June 2024 — December 2025

## Extra-curricular activities

### Project, Portfolio Website

January 2025 — January 2025

- Designed and developed a responsive portfolio website using HTML, CSS, Bootstrap, and JavaScript, ensuring compatibility with various devices.
- Integrated smooth scrolling, interactive buttons, and animations for better user engagement.
- Optimized website performance for faster loading speeds. Hosted the project on GitHub Pages and maintained the repository for future improvements

### Project, Facebook clone

- Designed and developed a responsive front page of Facebook using HTML, CSS, Bootstrap, and JavaScript. Ensured a mobile-friendly layout with optimized performance for a seamless user experience.
- Created a front-page clone of Facebook using HTML, CSS, Bootstrap, and JavaScript, maintaining design accuracy
